NUM. 2443

SATURDAY, APRIL 23. 1743.

Yesterday arriv'd a Mail from Flanders.

Petersbourg, April 5.

THE Persons concerned in the late treasonable Intrigues in this Country were of the lowest Class, and were rather hurried into these Disturbances by their Necessities, than drawn by any other Motive. It is believed that the Court will, for this time, think proper to punish them only by banishing them into Siberia, where there is, at present, a great Want of Hands even for the most necessary Purposes; since there are lately discover'd, in that Country, no less than three Copper, and five Silver Mines; the latter especially are very rich. As soon as the Czarina had read the Report of the Inspector of these Mines, she order'd the daily Wages of the Workmen to be increased One Third; adding, that she desired her Subjects Profit and her own might always go together.

Stockholm, April 12. The Dyet have absolutely deferred going into any Debate on the Affair of the Succession, till after the Return of Baron Scheffer and Captain Graman, whom they have dispatch'd to Abo, in order to be thoroughly satisfied as to the Proposals that have been made there by the Russian Plenipotentiaries. We continue, in the mean time, to carry on our Military Preparations with the greatest Diligence, having already embark'd several Regiments of Marines, and all the Sailors in the Pay of the Crown being on board. The Lord High Admiral Utal commands the Corelskroon Squadron, and Admiral Gyldenkiep the Gottenbourg Squadron; but we do not as yet know who will have the Command of the Men of War and Gallies which are fitting out here. We are, on the other Hand, thoroughly satisfied who our new General is to be, and his Field Equipages are actually ready to set out; yet we dare not name him. Our Success in the Isle of Aland is confirmed; but we still flatter ourselves with Hopes that a Peace is not far off.

here; perhaps in the greatest Disorder they ever were in any Country. The Enemies of the Royal Family applaud the Measures of the Court, and declare openly that they will sacrifice their Lives and Fortunes in the Service of the Crown. Such, however, as have shewn themselves upon all Occasions truly loyal, steadily oppose the March of our Troops to join the Spanish Army, which, they say, must produce Mischiefs to this Kingdom at all Events; and some of the wisest of the Spanish Ministers are exactly in the same Way of Thinking. The Common People are every-where uneasy and discontented, on account of high Taxes and new Levies, which are Things extremely odious here. Not long ago a Letter was dropt in the King's Bed-Chamber, in which many Things were said to induce his Majesty to regard nothing so much as the Safety of himself and of his People. In this Letter it is insinuated, that the House of Austria always had, and still have, many Friends in the Kingdom of Naples; that these, however, are daily wearing out, and that nothing but an immediate War can give them any Prospect of Success; for which Reason his Majesty ought of all Things to avoid it, especially at this juncture, when there is a victorious German Army almost on the Frontiers, and English Men of War on the Coast.

Geneva, April 6. The Minister of the States-General at Madrid has written to the Canton of Bern, that he has made new Instances, and presented a fresh Memorial, in relation to the Grievances by them complain'd of; and that his Catholick Majesty has been pleas'd to give him the strongest Assurances that the Marquis de la Mina shall undertake nothing that may justly give any Offence to the Cantons, with whom he is sincerely dispos'd to live in the utmost Harmony. But as the Helvetic Body have seen no Proofs of such a Disposition in the Conduct of the Spanish General, they do not pay any great Regard to these Assurances, but are raising Troops with the utmost Diligence for their own Security. On the other Hand, the Spaniards are no less alarm'd at these Preparations, and at those that are making in the Valais.

Vienna, April 10. The Queen has given the Regiment of Foot commanded by Count Wally to General Berenclaus, but we do not know upon whom his Government will be conferred. Count Ublefeld, our First Minister, gave, the Day before Yesterday, a grand Entertainment on his Marriage with the Prince Lobkowitz's Sister. We are not under any Apprehensions here of the French being able to penetrate into Austria, or that they will be able to renew the War in Bohemia. On the contrary,

Egra had been long ago in our Hands, if we would have granted such a Capitulation as the Governor desired; but it was judg'd more for our Interest to divide the French Forces, by keeping that Place constantly block'd up, than to leave them nothing to employ their Thoughts, but the extending their Quarters in Bavaria.

Hague, April 24. The States of Holland and West Friesland assembled this Day. We have Advice here, that his Imperial Majesty set out for Munich on the 17th, and others will have it that he is gone only 13 days. Our Politicians are of Opinion, that the Auxiliaries lately march'd into Germany will not continue their Route towards Bavaria, but will rather take Post in Swabia, and there publish a Manifesto in relation to the securing and protecting the German Liberty; upon which, it is thought, that most of the States of the Empire will declare in their Favour, and send their respective Quotas to join them; since it is very certain, that they have been long weary of the French, and are resolv'd not to be subjected by them under Colour of the Imperial Authority.

MR. GAZETTEER,

WHEN a strong Westerly Wind hinders you from entertaining your Readers with good Intelligence from Germany, or Italy, the underwritten on the famous Dr. CHEYNE, lately dead at Bath, may happen to be agreeable: 'Tis neither offensive, nor out of Character.

On the Death of Dr. CHEYNE.

Apta tuis, magni nominis umbra venit,

The only true Specifick Tincture  
For the **TOOTH-ACH,** and all Disorders  
and Defects of the **TEETH** and **GUMS** whatever, which has given such entire Satisfaction to the Nobility and Gentry for above Twenty Years past, by its vastly exceeding all other Tinctures formerly invented or lately contrived for those Purposes.  
**SINCE** one Drop of it gives infallible and instant Ease in the most tormenting Pain, when nothing else will, and not only takes it away in a Moment, but absolutely cures the **TOOTH-ACH,** so as certainly to prevent its Return.

As only once using it makes the foulest Teeth most beautifully white, assuredly softens those that are loose, and infallibly preserves the Teeth from growing rotten, and those a little decay'd, from becoming worse: It perfectly cures the Scoury in the Gums, causing them to grow up to the Teeth again to Admiration, and also occasions a Sweet Breath.  
It is neither disagreeable to the Smell or Taste, but effectually preserves the Teeth and Gums from all Manner of Decay, Corruption, and Putrefaction, keeps them sound, good, and in most beautiful Order, and may be depended upon to answer the Character here given of it, literally, and in every Respect, as Persons innumerable have experienc'd.  
But these inimitable Qualities, and solely inherent Virtues, by which it has justly gain'd such an universal and unparalleled great Character, have occasion'd, as usual in such cases, various and frequent Endeavours to mimic it, some under the same Name, and in the very Words of this Advertisement, and others under other Names: be careful, therefore, to have the right, which may be infallibly relied upon, and which is to be had only by the Author's Appointment, of the Gentlewoman, at the Two Blue-Puffs, in Haydon-Yard, in the Minorics, London, at 1 s. 6 d. a Bottle, with Directions.  
Good Allowance to those who take Quantities for Exportation.
